

The First

BARKLEY SOUND KNOWLEDGE SYMPOSIUM

FEBRUARY 9-11, 2010

An integration of existing scientific, indigenous, and local ecosystem knowledge to support Comprehensive Ocean Zoning in Barkley Sound

THEMES:

- Historical changes in the Barkley Sound ecosystem, expectations for future changes, & future visions.
- Spatial and temporal distributions of natural resources, human uses, and related values.
- Indicators of the integrity and health of the Barkley Sound marine ecosystem & human communities.
